

WASHING A DISH CAN COST A LOT

Now, it doesn't have to.

Stop tossing your money down the

You can save \$800.00 to \$3500.00 per month and keep the quality, high temperature wash that you want. This is not a free dishwasher, you-buy-the-expensive chemical deal. A quality, high temperature dish machine with a Reliable, High-Performance Vanguard gas booster heater will give you the *sparkling clean* result that keeps your customers coming back and will generate substantial savings on your utility bills as well. In fact, the Vanguard **PowerMax™** Gas Booster is so reliable and so efficient (the most efficient, cleanest burning, best performing, and least troublesome of all gas boosters) that it will completely pay the lease payment (eq. & install) and still generate \$500.00 to \$2000.00 a month in positive cash flow (and no service headaches). Like the song says, "Money for nothing, and the booster for free". (sorry).

Marriott, Hilton, Hyatt, NASA, MIT, Monterey Peninsula Country Club, Outback Steakhouse, Old Spaghetti Factory, Spirit Mountain Casino, Northwest Airlines, Pacific Gas & Electric and many more serious operations can verify these statements.

Stop throwing money down the drain. Put it back on your bottom line. Please review the enclosed information and call with any questions. It is all provable.
